To Whom It May Concern:

I write to strongly oppose the merger of Comcast and Time Warner Cable. As a longstanding customer of Comcast in Pennsylvania, I have found on numerous occasions that their product and service has been substandard. As a monopoly in this area, I do not really feel that they are responsive to consumer needs, and making them a bigger monopoly would not serve the consumers well.

I feel actually that opening service options to other providers would make this a much more competitive and consumer friendly market. Did not we years ago breakup the phone companies just for this reason?

I do not usually write to government agencies for things of this matter; however my experience over the years with Comcast as a monolithic entity has been so unfavorable that I felt compelled to express my opinions in this regard.

Sincerely,

Bruno V. Manno, Jr., M.D., F.A.C.C.
